Authors of *JFE* papers with the most papers and citations, 1974-2020

Papers/Coauth: each of n authors receives 1/n credit for a JFE paper. Papers/Author: each coauthor receives full credit for each paper. Total Cites: the sum of citations across all papers from the Social Science Citation Index for each year since a paper was published. Cites/Year: average citations per year since publication. Cites/Author: average citations per author for all years since publication. Cites/Auth/Year: average citations per year per author. Affiliation reflects the author's location at the time of the last JFE paper was published. JFE editor indicates the author was on the editorial board at some time from 1974-2019. There are 3,360 authors who published 3,010 papers in the JFE from 1974-2020.

Authors of *JFE* papers with the most papers and citations, 1974-2020

Papers/Coauth: each of n authors receives 1/n credit for a JFE paper. Papers/Author: each coauthor receives full credit for each paper. Total Cites: the sum of citations across all papers from the Social Science Citation Index for each year since a paper was published. Cites/Year: average citations per year since publication. Cites/Author: average citations per author for all years since publication. Cites/Auth/Year: average citations per year per author. Affiliation reflects the author's location at the time of the last JFE paper was published. JFE editor indicates the author was on the editorial board at some time from 1974-2019. There are 3,360 authors who published 3,010 papers in the JFE from 1974-2020.

Authors of *JFE* papers with the most papers and citations, 1974-2020

Papers/Coauth: each of n authors receives 1/n credit for a JFE paper. Papers/Author: each coauthor receives full credit for each paper. Total Cites: the sum of citations across all papers from the Social Science Citation Index for each year since a paper was published. Cites/Year: average citations per year since publication. Cites/Author: average citations per author for all years since publication. Cites/Auth/Year: average citations per year per author. Affiliation reflects the author's location at the time of the last JFE paper was published. JFE editor indicates the author was on the editorial board at some time from 1974-2019. There are 3,360 authors who published 3,010 papers in the JFE from 1974-2020.

Authors of *JFE* papers with the most papers and citations, 1974-2020

Papers/Coauth: each of n authors receives 1/n credit for a JFE paper. Papers/Author: each coauthor receives full credit for each paper. Total Cites: the sum of citations across all papers from the Social Science Citation Index for each year since a paper was published. Cites/Year: average citations per year since publication. Cites/Author: average citations per author for all years since publication. Cites/Auth/Year: average citations per year per author. Affiliation reflects the author's location at the time of the last JFE paper was published. JFE editor indicates the author was on the editorial board at some time from 1974-2019. There are 3,360 authors who published 3,010 papers in the JFE from 1974-2020.

Table 6A

Papers and citations to papers written by authors at a given institution published in the *JFE*, 1974-2020

Papers/Coauth: each of n authors receives 1/n credit for a JFE paper. Papers/Author: each coauthor receives full credit for each paper. Total Cites: the sum of citations across all papers from the Social Science Citation Index for each year since a paper was published. Cites/Year: average citations per year since publication. Cites/Author: average citations per author for all years since publication. Cites/Auth/Year: average citations per year per author. The institutions are identified at the time the paper is published. There are 605 institutions and 3,360 authors who published 3,010 papers in the JFE from 1974-2020.

Table 6A

Papers and citations to papers written by authors at a given institution published in the *JFE*, 1974-2020

Papers/Coauth: each of n authors receives 1/n credit for a JFE paper. Papers/Author: each coauthor receives full credit for each paper. Total Cites: the sum of citations across all papers from the Social Science Citation Index for each year since a paper was published. Cites/Year: average citations per year since publication. Cites/Author: average citations per author for all years since publication. Cites/Auth/Year: average citations per year per author. The institutions are identified at the time the paper is published. There are 605 institutions and 3,360 authors who published 3,010 papers in the JFE from 1974-2020.

Table 6A

Papers and citations to papers written by authors at a given institution published in the *JFE*, 1974-2020

Papers/Coauth: each of n authors receives 1/n credit for a JFE paper. Papers/Author: each coauthor receives full credit for each paper. Total Cites: the sum of citations across all papers from the Social Science Citation Index for each year since a paper was published. Cites/Year: average citations per year since publication. Cites/Author: average citations per author for all years since publication. Cites/Auth/Year: average citations per year per author. The institutions are identified at the time the paper is published. There are 605 institutions and 3,360 authors who published 3,010 papers in the JFE from 1974-2020.
